21 February 2018

Showcasing Water innovation and Technology Exhibition and Dialogue

In response to the drought, municipalities are looking for solutions to optimise their reducing water supply.

You are invited to the Dialogue and Showcasing on water innovation and technology options.

SALGA in partnership with the City of Cape Town is hosting a water innovation and technology exhibition and dialogue on 22 February 2018 in Paarl to provide a platform for dialogue on water technology innovation and research.

The venue is the Paarl Town Hall scheduled to start at 10h00 and conclude by 15h00.

The session will consist of a panel discussion with key speakers from the Water Research commission on water technologies, the Department of Water and Sanitation on the current challenges with water availability and AgriSA on the impact of Water Scarcity on the economy and food security.

Participants (Executive Mayors, Municipal Managers, Technical Managers and key stakeholders) will be given the opportunity to engage and discuss the technology options at the exhibitions in the Hall.
