Introduction

The Provincial Members' Assembly (PMA) is a constitutional meeting of all municipalities which is convened in between Provincial Conferences. In terms of Article 23.1 of the SALGA constitution, Gauteng as a provincial member shall, at least once a year, hold a meeting of members to be known and described in the notice calling such meeting as the Provincial Members Assembly.

Purpose

The purpose and objectives of the PMA is to amongst others consider the followings:
Act in accordance with the directions of the Provincial Conference.
Adopt the provincial member's programme of action, business plan and budget in respect of the ensuing year.
Consider reports from the provincial working groups and oversight bodies.
Deal with any other issues emanating from the provisions applicable to provincial members in this Constitution.

Participants

Members of the Provincial Executive Committee (PEC) and Provincial staff.
Chairperson of Provincial Women's Commission
Executive Mayors, Speakers, Chief Whips, Municipal Managers and CFOs from all member municipalities to attend the session.
Delegates from Provincial Government and key stakeholders

The province is constitutionally enjoined to hold a Provincial Members Assembly (PMA) to review the performance of the organization over the past year. It is also required to discuss internal as well as external factors/challenges confronting the sector. The PMA is an annual gathering and premier event for SALGA members in

Gauteng and offers a fantastic opportunity to network, learn, share knowledge and influence the future agenda of organized local government in the province.

The PMA will focus on key issues affecting local government on matters such as service delivery, governance, fiscal management and related challenges. It provides an opportunity to:

Learn best practices and gain new insight to address municipal challenges

To network with political and administrative leaders in local governance

Learn from expert panellists and industry experts

Exchange and share knowledge.
