1. INTRODUCTION

The South African Local Government Association (SALGA) is a public entity established by the Organised Local Government Act (Act 52 of 1997) to assist in the comprehensive transformation of local government in South Africa. SALGA is managed within the framework of the Public Finance Management Act (Act 1 of 1999) and is listed as a schedule 3A public entity. Its main objectives are to:

- Represent, promote, and protect the interests of local government.
- Transform local government to enable it to fulfil its developmental role.
- Enhance the role and status of its members as provincial representatives and consultative bodies of local government.
- Enhance the role and status of municipalities.
- Be recognized by national and provincial governments to be the representative and consultative body in respect of all matters concerning local government and to make representations to both provincial and national governments in respect of any matter concerning local government.
- Ensure the full participation of women in organized local government.
- Be the National Employers' Organisation representing all municipal members and, by agreement, associate members.

2. SALGA MANDATE

Developmental Local Government is an essential component of the machinery of government. Under its constitutional mandate, SALGA is obliged to transform the local government sector into one that has the required capacity to make a meaningful contribution to poverty alleviation, economic development, and all socio-economic opportunities that the state has geared itself to provide for its people. SALGA also serves as the representative voice of all 257 municipalities in the country. For the past 25 years, since its establishment, SALGA has endeavoured to bring focus to its mandate of supporting local government transformation in a complex environment, characterised by a highly diverse and diffuse membership base of municipalities. In terms of its amended Constitution, SALGA is a unitary body that consists of a national association and nine provincial offices. Its mandate rests on six primary pillars:

- (1) **Representation, Advocacy and Lobbying** refer to representing the interests of members in legislatures and other policymaking and oversight structures. It also refers to engaging with various stakeholders, public debates etc. in the interest of Local Government.

- (2) **Employer Body** refers to being an effective employer representative for members. Employer representation is carried out through collective bargaining (in terms of the Labour Relations Act) in various structures including but not limited to those established in the South African Local Government Bargaining Council.
- (3) **Capacity Building** refers to facilitating capacity-building initiatives through among others, representing member interests in the Local Government Sector Education Authority (LGSETA). SALGA strives to facilitate a coherent, well-coordinated capacity-building programme for municipal councillors and officials.
- (4) **Support and Advice** refers to the provision of tools and services that enable municipalities to understand and interpret trends, policies and legislation affecting Local Government and to implement the said policies and plans.
- (5) **Strategic Profiling** of Local Government refers to enhancing the profile and image of local government as an important and credible agent for the delivery of services. Profiling focuses on South Africa, the African continent, and the rest of the world.
- (6) **Knowledge and Information Sharing** refers to building and sharing a comprehensive hub of Local Government knowledge and intelligence that will enable informed delivery of other SALGA mandates. The knowledge hub is also a useful reference point for all who seek Local Government information.

Diagrammatically the mandate is depicted as follows:
