## 1. INTRODUCTION

The South African Local Government Association (SALGA) is a public entity established by the Organised Local Government Act (Act 52 of 1997) to assist in the comprehensive transformation of local government in South Africa. SALGA is managed within the framework of the Public Finance Management Act (Act 1 of 1999) and is listed as a schedule 3A public entity. Its main objectives are to:

- Represent, promote and protect the interests of local government;
- Transform local government to enable it to fulfil its developmental role;
- Enhance the role and status of its members as provincial representatives and consultative bodies of local government;
- Enhance the role and status of municipalities;
- Be recognised by national and provincial governments to be the representative and consultative body in respect of all matters concerning local government and to make representations to both provincial and national governments in respect of any matter concerning local government;
- Ensure the full participation of women in organised local government;
- Be the National Employers' Association representing all municipal members and, by agreement, associate members.

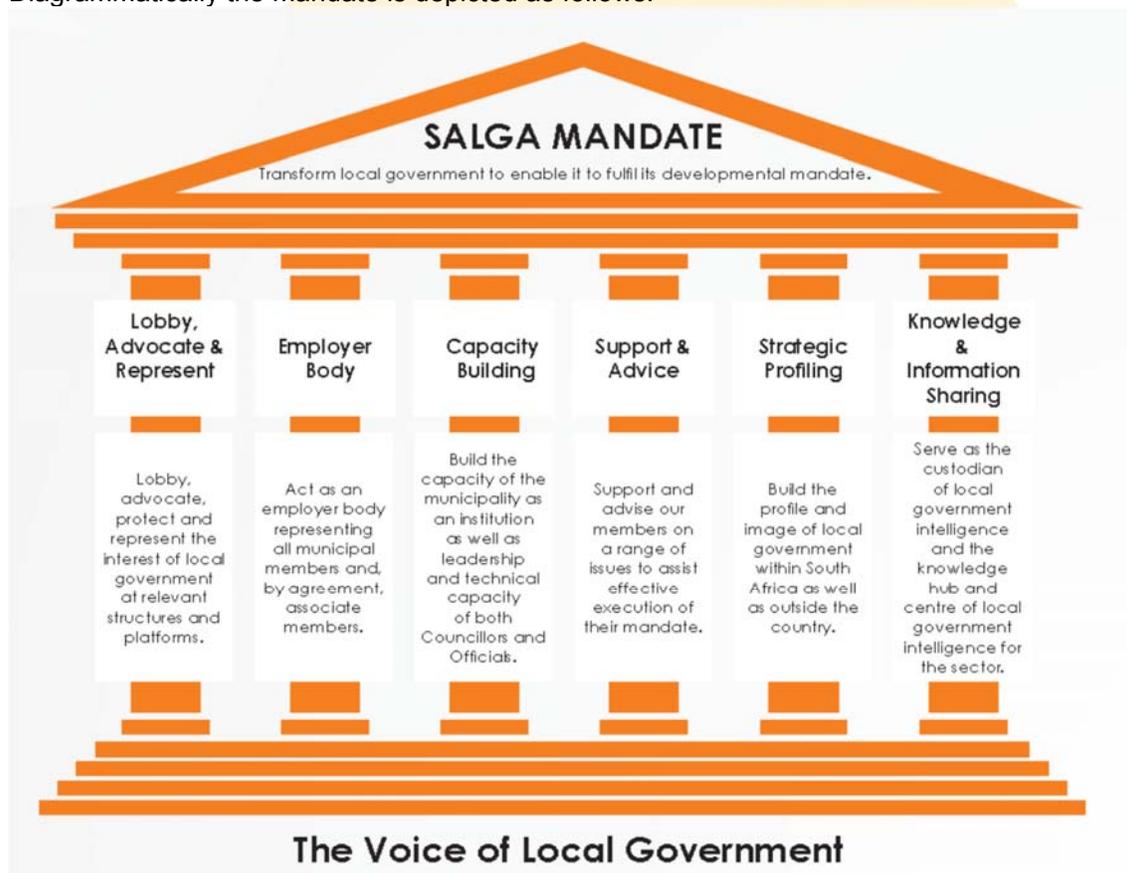

## 2. SALGA MANDATE

Developmental Local Government is an essential component of the machinery of government. In accordance with its constitutional mandate, SALGA is obliged to transform the local government sector to one that has the required capacity to make a meaningful contribution to poverty alleviation, economic development and all socio-economic opportunities that the state has geared itself to provide for its people. SALGA also serves as the representative voice of all 257 municipalities in the country. For the past 20 years, since its establishment, SALGA has endeavoured to bring focus to its mandate of supporting local government transformation in a complex environment, characterised by a highly diverse and diffuse membership-base of municipalities. In terms of its amended Constitution, SALGA is a unitary body that consists of a national association and nine provincial offices. Its mandate rests on six primary pillars:

- (1) **Representation, Advocacy and Lobbying** refers to representing the interests of members in legislatures and other policy making and oversight structures. It also refers to engaging with various stakeholders, public debates etc. in the interest of Local Government.
- (2) **Employer Body** refers to being an effective employer representative for members. Employer representation is carried out through collective bargaining (in terms of the Labour Relations Act) in various structures including but not limited to those established in the South African Local Government Bargaining Council.
- (3) **Capacity Building** refers to facilitating capacity building initiatives through among others; representing member interests in the Local Government Sector Education Authority (LGSETA). SALGA strives to facilitate a coherent, well-co-ordinated capacity building programme for municipal councillors and officials.

- (4) **Support and Advice** refers to the provision of tools and services that enable municipalities to understand and interpret trends, policies and legislation affecting Local Government and to implement the said policies and plans
- (5) **Strategic Profiling** of Local Government refers to enhancing the profile and image of local government as an important and credible agent for the delivery of services. Profiling focuses within South Africa, the African continent and the rest of the world.
- (6) **Knowledge and Information Sharing** refers to building and sharing a comprehensive hub of Local Government knowledge and intelligence that will enable informed delivery of other SALGA mandates. The knowledge hub is also a useful reference point for all who seek Local Government information.

Diagrammatically the mandate is depicted as follows:

### 3. BACKGROUND AND PROGRAMME IMPLEMENTATION CONTEXT

The SALGA Strategic plan for 2017-2022 is aimed at achieving social justice and cohesion through the integrated management of space, economies and people. The strategy confirms two key roles for SALGA to better impact the local government sector positively. Firstly, SALGA fulfils the role of PROTECTOR to ensure that the rights of the local government sector is robustly enforced; and secondly SALGA has identified the need to fulfil the role of DISRUPTOR to work to constructively disrupt where existing systems make it impossible for local government to deliver on its mandate. The strategy is also premised on the fact that

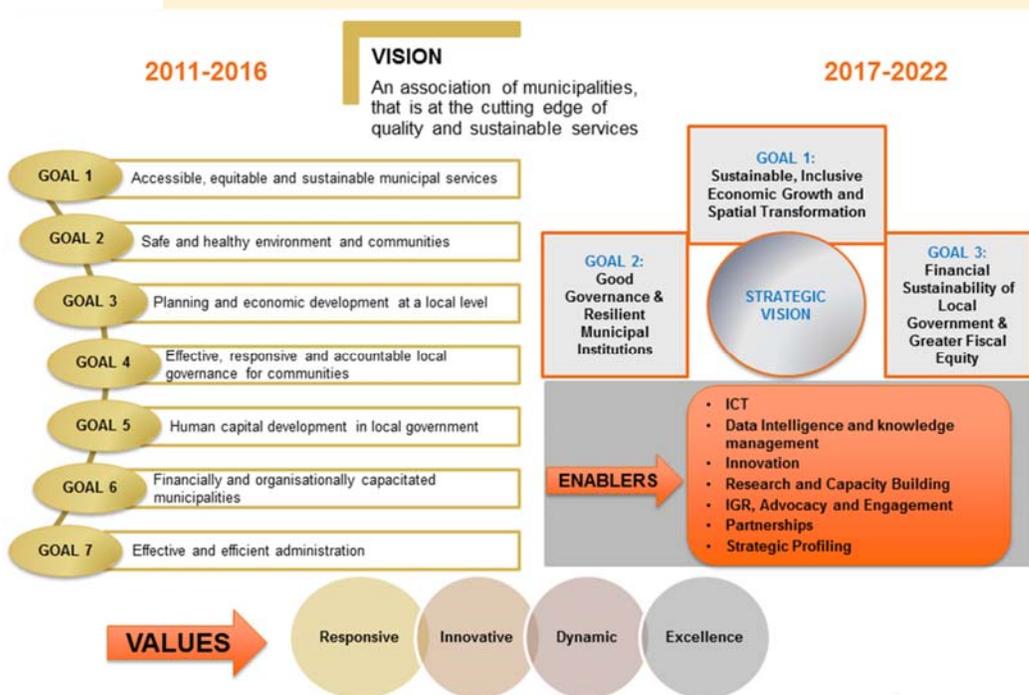

local government is the sector of government that is closest to people and must therefore be empowered, resourced and capacitated to assume its critical role of delivering quality services to people. A number of strategic shifts underpin the successful achievement of the strategic intent.

Strategic shifts, as is the case with SALGA requires a review and realignment of the organisation to ensure that:

- 1) A streamlined and integrated institutional framework is established to prepare the organisation;
- 2) The organisation is effectively capacitated through placement of employees into the aligned structure of the organisation; and
- 3) The organisation is correctly enabled to deliver against its mandate and to maximise organisational results.

The diagram below provides a summary of how the strategic goals have been consolidated from the previous strategy to the current strategy.

Figure 1: Shifts in SALGA Strategic Shifts

There are implicit strategic shifts underpinning the adoption of the 2017-2022 SALGA strategy to bring about greater focus; to become more member-centric in its response to the needs of the members; and to enable the organisation to make optimal use of its resources.

It is against this background that SALGA has embarked on a series of organisational development interventions aimed at strengthening its capacity to perform its roles in terms of serving as the voice of local government on the one hand, and providing advice and support to municipalities on the other. These interventions are targeted at strengthening SALGA's

governance framework, structure, processes and supporting business systems, and performance management, among others.

Below is a depiction of SALGA Transition Management Program (STMP)

Figure 2: SALGA Transition Management Plan

These organisational development interventions recognise the need to modernise SALGA’s operating environment, with a focus on the development of SALGA’s operating model, re-engineering of its business processes, and ensuring that the organisation has the required business systems architecture to support the execution of the organisation’s mandate.

The purpose of the transition plan is to guide SALGA in the implementation of the different interventions required to ensure a fully functional organisation by end of March 2019.

#### 4. CHANGE MANAGEMENT

“Change is a permanent part of life. No matter who we are, where we live, how old or young, we all make changes in our lives. Most of us struggle with change...

The ways we change inside, the ways we grow and learn, and become transformed are because of the changes in our lives.”

One of the key challenges and the area that poses the highest level of risk to the success of the transition is the impact of the change on the SALGA employees; and the level and effectiveness of the support provided to employees to embrace the change.

The potential impact that a transition of this nature has on employees must not be underestimated and it is of critical importance to invest the time and money to manage the change process effectively.

There are many different change models to choose from to underpin the process and each potentially has different steps.

**CERTIFICATE OF INDEPENDENT BID DETERMINATION**

- 1 This Standard Bidding Document (SBD) must form part of all bids<sup>1</sup> invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).<sup>2</sup> Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
  - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
  - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.
- 4 This SBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (SBD 9) must be completed and submitted with the bid:

<sup>1</sup> Includes price quotations, advertised competitive bids, limited bids and proposals.

<sup>2</sup> Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
